GENERAL CONSENT FOR AUDIOTAPING, VIDEOTAPING AND
PHOTOGRAPHING STUDENTS

It is tradition in our school district to allow district staff and media to photograph individual students and groups of students to commemorate events and to promote education in the district or at WestShore. As well, the Board recognizes the value of using various technologies in presenting a positive relationship with the community, but respects individual rights to privacy and confidentiality. Photographs and casual or planned audio taping, videotaping or photographing are part of the normal activities of our school and adds to the community spirit. As such, consent for the release of your name, photograph and comments is required. Names, photographs and comments may be used in student projects & journals or published in our quarterly course calendar, flyers, used for display purposes, and news media.

Yes, I give *my consent* or I give *my consent for my son/daughter* for the publication of my name or my son/daughter's name, photograph and comments for the purposes consistent with the above.

No, I do not give *my consent* or I do not give *my consent for my son/daughter* for the publication of my name or my son/daughter's name, photograph and comments for the purposes consistent with the above.
